

JESUS IS THE HOPE OF GLORY

a series through Colossians.

May 24th

Parents

This week we are trying something new for the kids. We have come up with some more generic sheets that have the possibility of being used with any sermon, anywhere. Feel free to download them and save them to use anytime, at any church. We recommend taking your own notes (either below or using "The Deep End" sheet) and having spiritual dialogue with your family after the message or around the lunch table. Make a rhythm of having these talks every week and it will make them more natural over time..

Work together as a family. Talk about the message and the takeaway you as a family need. Write it here, tear it off, and put it where everyone can see it.
